Page 5 Page 7 central office. \$1,594,911. So net income is very good overall 1 2 for both divisions. 2 CHAIRMAN GREEN: And, when we're purchasing 3 and acquiring properties -- I ask this question Looking at the central office, our income is 3 every other week -- it's coming from central at 23.28 percent. Were coming in with the core 4 4 office? 5 at \$1,620,961. And, looking at our expenses, 5 CFO: It's going to come from central office 6 we're doing really well. We're at 17.34 percent, 6 and affordable housing. It's anything that is not 7 at \$1,295,356. 7 CHAIRMAN GREEN: Can you blow that up a federal. 8 8 little bit? 9 CHAIRMAN GREEN: Okay. 9 (Mr. Perez comlied.) CFO: And a lot of what we're doing is going 10 10 CHAIRMAN GREEN: You could make it a touch 11 11 to be 100 -ercent financed. So none of the cash smaller. 12 12 will be affected. 13 (Mr. Perez complied.) 13 CHAIRMAN GREEN: And, when we manage our own CHAIRMAN GREEN: Okay. 14 14 property, that's not -- like say like a property CFO: And our net income for the central 15 where it's like affordable housing, mixed use, 15 16 office is \$325,605. whatever and we take over the property, 16 17 Looking at public housing, we're at that money goes to central office --17 \$4,095,931 for income for the guarter. 18 18 those management fees? So we're right on track with our budget, 19 CFO: Those management fees go to central 19 and our expenses are at about 22 percent, 20 20 office, yes. which is about 3 percent under budget 21 21 CEO: Yes. And, basically, for the most of \$3,383,648, and our net operating income 22 22 part, it would be segregated, because, basically, through December is \$712,282. 23 23 the money that we're using is unrestricted cash. 24 For our Section 8 operations, we're a little 24 CHAIRMAN GREEN: Right. high on our income. We are at 36.27 percent 25 25 CEO: So all of that money is separated from Page 6 Page 8 coming in at \$2,556,787. the federal money that we have. So, underneath 1 CHAIRMAN GREEN: Why is that? the Jax Urban Initiatives, it's exactly where that 2 2 CFO: We got some additional admin fee money money will be reported out of basically. 3 3 for the quarter. So that's pushing it up. CHAIRMAN GREEN: Right. Okay. 4 4 5 This is just the operations piece. So, for example, if you partnered with a 5 6 So it's the administrative only. It doesn't developer, they carved out 20 units for 6 include the HAP expense. 7 affordable housing, but, as an agreement, 7 8 CHAIRMAN GREEN: All right. 8 the housing authority wants to manage the entire CFO: And then, for our expenses, -- property manage the entire facility. 9 9 10 we're right on track at \$2,072,392, and our net 10 So those monies -operating income is \$484,395. CEO: That money will go directly into our 11 11 For our Gregory West, this is our affordable COCC. 12 12 property. We're right on track with our income CFO: Every month we look at the Quick Ratio 13 13 14 about 1 percent below what we budgeted. and our MENAR. 14 We're at \$644,148, and our expenses are coming 15 15 Our quick ratio -- we're doing really well. 16 in at 23 percent at \$315,083. So our net Victory Pointe leads the way at 25, followed by 16 operating income is \$329,065. 17 17 Riviera at 24. 18 For Brentwood Park, we're about 1 percent Our MENAR at Victory Pointe is 22.5, 18 over budget on our income. We're at \$679,003, 19 19 which means we can operate our property for 20 and our expenses are about 3 percent below budget 20 22 months without additional HUD money. 21 at \$560,427, and our net operating income is 21 Overall, we're are at 12.84. So we can operate \$118.575. 22 our properties for a full year. 22 For our estimated reserves, we finished off CHAIRMAN GREEN: Has this ever happened --23 23 the month just under \$56,000,000 in reserves I know, if the government closes, but it doesn't 24 24 25 primarily at public housing, Section 8 and 25 really close for like a year.

Page 9 Page 11 CEO: Well, typically, the last time --1 have to take and create reserves in case if you 2 well, actually, it was to be a proration. 2 have any massive or large capital needs, The money that we get is based on a proration, then you'll take the money from reserves. 3 3 and, typically, when the Federal Government has 4 4 But, fortunately, for the housing some issues and they cut the funding to HUD, authorities, the Federal Government provides them 5 5 6 then what happens is the funding that they 6 with the capital fund, which has been diminishing provide to housing authorities is cut short. 7 7 over the years. 8 And the last time it happened most CHAIRMAN GREEN: Okay. 8 housing authorities ended up laying employees off, COMMISSIONER HOROVITZ: I have a question. 9 9 10 or they put them on furlough. Not to throw you off of the slides, but, 10 11 Those are the ones who didn't have cash 11 going back to the variances to the budget, 12 reserves, in the sense that their MENAR was do you do a reforecast at any point during the 12 13 high enough. 13 year, or do you only do the budget ones that we HUD always encourages folks to have a minimum 14 have? 14 15 of at least four months reserved just in case we CFO: Midyear we'll do a budget revision. 15 have a shutdown or if there is some lack of 16 COMMISSIONER HOROVITZ: Okay. 16 17 funding there. 17 CFO: So, for the March or April board But some housing authorities are struggling, 18 meeting, we'll have a budget revision for all the 18 19 and some of them don't have the cash flow. properties. 19 And, if they do, typically, those couple months 20 20 COMMISSIONER HOROVITZ: Is there any reason will carry them through. 21 why you don't do it more frequently to be able to 21 But, to the point, it's highly unusual, 22 22 model that you're expecting changes? 23 when you have housing authority that is that CFO: I think, in the long run, it really 23 liquid that could function for 12 months without 24 24 doesn't change anything for us. You know, 25 any funding, and we are in a very strong position. if there is a variance to the budget, we explain 25 Page 10 Page 12 CHAIRMAN GREEN: That's mostly good, 1 the variance. 2 Otherwise, you're going to be constantly but partially negative, right? 2 3 Because we should be spending the money 3 doing budget revisions. 4 COMMISSIONER HOROVITZ: And then, do you do a towards repairs or properties or --4 5 5 CEO: Yes. Well, we do allocate. So we get forecast? capital fund money, which is just a little bit And I think that there was a model that went 6 6 7 south of \$6,000,000, and we use that capital fund 7 along with the strategic plan. 8 money every year. 8 I'm sorry. I'm new. 9 Like right now, on one of the resolutions we 9 CFO: Go ahead. COMMISSIONER HOROVITZ: Does the model show 10 have, we're actually going to be taking money out 10 11 of the 2019 ... you have two years to obligate the 11 a five-year forcast, and then do you have maybe a 12 money and four years to spend it. 12 base best and worst case scenario? CHAIRMAN GREEN: Okay. 13 Because what we're referring to, 13 14 CEO: So we're at the end of spending all of 14 about a government shutdown, would definitely be the '19 money. So that money is revolving, like a worst case scenario. 15 15 16 but our properties are, for the most part, 16 CFO: Right. in good shape. It's just the real big, large COMMISSIONER HOROVITZ: Do you model that? 17 17 18 capital needs. 18 CFO: We don't model that for our public If you remember the PNA that we had done of housing properties. For our RAD properties, 19 19 20 all co-owned properties, in the first year, 20 we model all of our expenses out 10, 15, 20 years, which is typically an emergency, we were close to 21 21 but, for our public housing properties, no. 22 \$1,000,000, and we had already scheduled that work 22 We get funding every year from HUD. to be performed anyhow. 23 23 Even if there is a government shutdown or less 24 So we do receive capital fund money, 24 money coming in, typically, they'll give us extra unlike if you had a private property, where you 25 25 money on the back end to make up for it.

Page 15

Page 13

So they may prorate us a little bit differently, if we get to the debt ceiling or something like that, but, typically, HUD will fund us every year.

COMMISSIONER HOROVITZ: Thank you. CEO: And, just to add to that,

just like Dennis mentioned earlier, in the budget, we had some additional money.

Typically, when there's money left over at the end of the year, depending on the performance of the housing authorities, they usually give surplus cash to the housing authorities that have a high performance status.

So there's always additional money out there, and, in terms of the variances, typically, if you're looking at a real estate model, there's always so many variances if you're looking at a REIT or anything along those lines, many things can happen.

But, typically, in public housing, it doesn't really change in terms of variances, because it's subsidy provided. So the Federal Government pays for those specific occupied units.

In terms of Section 8, we receive a certain amount of money. If there is a funding cut,

then you look at that the include

And, when you look at that, typically, years ago they still had Hope VI money, and then they had a couple programs, The Vacancy Reduction Program.

But, leading up to the RAD Program, what happens is they have trillions of dollars of backlog capital needs, and the Federal Government didn't have all of the money to do all of the capital needs.

So what they figured out -- the same person that worked on the Hope VI, the same persons that worked on the Harvard study review came up with the notion it would be illogical if the housing authority could be able to get some mixed income into these properties to be able to handle some of these capital needs by doing improvements.

If you take Hogan Creek, we spent \$19,000,000 on that. Typically, years ago, that property would just age, age, age, because the capital fund money has diminished, diminished, diminished.

But, because we were able to go out and put project-based vouchers there, it provides more money and more subsidy than the public housing subsidy. We were able to lace that property with project-based, and we were able to obtain a loan

Page 14

then you can't use those many vouchers.

So, basically, you have to cut back on the vouchers.

COMMISSIONER HOROVITZ: Thank you.

CFO: Looking at our RAD properties, this is our year-end for our RAD properties, and we're looking at 12 months of activity.

For The Waves, we're at 111 percent for our revenue. So we're doing really well.

CHAIRMAN GREEN: Sorry.

I know what a RAD property is, but can you just give me a definition?

CEO: Okay. So --

CHAIRMAN GREEN: I know The Waves and all that.

CEO: -- typically, the RAD properties -- all of this came out of the thought process back in 2006 and 2007 when they were trying to find ways to figure out how it would be best to manage public housing.

And managing public housing -- they created an assett management. They did a Harvard study review that stated that, "Public housing should be best managed if they manage it like the private sector."

Page 16

on that property.

And, based on using the vouchers and project-base and using that pro forma,

the property can actually cash out in the long-term, but the crux of it is that, basically, they will be able to get the capital needs done that you wouldn't normally be able to get done with the normal budget. But that building took \$19,000,000.

If you look at our Jax Beach property, we spent \$38,000,000, and then, when you look at Centennial Towers, we spent almost \$30,000,000 there -- like 20-something million dollars over there.

So, when you combine those three properties, we spent almost \$100,000,000 that we would be almost ten years trying to acquire out of our capital fund providing that none of the properties had any real major needs.

We have Twin Towers. One of the reasons why we've done our high rises is because the elevators are antiquated. The elevators cost us about \$900,000 to a million dollars, and our elevators stayed broke all the time.

And the equipment or the materials to fix the

Page 17 Page 19 equipment don't even exist anymore. So you have 1 almost 3 percent above budget at \$1,709,513. 2 to put new elevators in there. So you'll see in 2 Our expenses were at 93 percent -our capital fund budget that we allocated \$1,085,239 -- and our net operating income is 3 3 \$900,000 to put new elevators over at Twin Towers. \$424,273. 4 4 But, if we weren't able to segregate these 5 5 And then, finally, for Hogan Creek, 6 properties and getting capital needs done on these we're at 76 percent -- \$1,297,087. The last 6 properties by going out and using investors, 7 7 several months we've been right on track with then we may not be able to have the \$900,000 what we had originally budgeted. So we're doing 8 8 9 to be able to do the capital needs on the property -- month over month, we're doing very well on our 9 that we're working on. income. And then, for our expenses, we're at 10 10 11 So the whole thing in a nutshell is called, 11 87 percent at \$1,143,139. 12 "The Rental Assistance Demonstration Program," 12 Any questions? 13 which was started back in 2011. 13 CHAIRMAN GREEN: I know there is a resolution And, when that came out in 2011, 14 regarding the Hogan Creek budget. I was going to 14 they basically only had about 60,000 units, 15 15 ask, why the negative, you know, 233-? and every housing authority in the country had to 16 16 I know that some of a lot of this 17 apply for those 60,000 units. depreciates. 17 So that's why they call it, "a demonstration 18 18 CFO: It's depreciation, which is a noncash 19 program." It hasn't already been totally flushed item. 19 out. 20 CHAIRMAN GREEN: Right. 20 As you know, at some of the conferences, 21 21 CFO: So we do have net income before they have, "Life After RAD." 22 the depreciation so that the property is 22 23 Because the RAD works good for some folks, 23 cash flowing. It just shows that because of the because it's just not all about capital 24 24 way we showed the depreciation on the budget. improvements. 25 CHAIRMAN GREEN: Okay. Thank you. 25 Page 18 Page 20 CFO: Okay. Thank you. Some of them wanted to do a straight 1 2 2

CHAIRMAN GREEN: No. That's good.

And, when you say, "project-based," explain.

CEO: Project-based is different from a tenant-based voucher.

A tenant-based voucher -- you can take that voucher and live anywhere in the United States, including the territories of Puerto Rico and the Virgin Islands.

Project-based would be that the actual unit has the voucher, and the subsidy is on the unit, not with the person.

CFO: So income for The Waves came in at 111 percent. So we're doing very well at The Waves for the calendar year. \$1,772,360 of revenue. For our expenses, we're right on track -- well, a little high at 109 percent, but we -our expenses are only \$785,752. And our net operating income, before depreciation and interest expense, was \$986,609.

For Centennial Towers, we came out

CHAIRMAN GREEN: On to Item V, "Presentation

of Operations Resolutions."

CEO: Okay. Thank you, Commissioner.

Resolution No. 2023-JHA-01 is a

Total Lawn Care contract modification.

This contract modification came to us, at the end of the contract request, of an increase to the contract because of the rising costs associated with the labor and fuel, equipment, et cetera.

And, since COVID, many industries have a significant increase in their day-to-day costs, which requires them to pass these costs onto their customers.

The Total Lawn Care has had this contract with us since 2019 and are currently moving into their third renewal. As you know, we have a contract of one year and renewal up to four years with more than -- more than a year left on the total contract.

They are requesting an increase of \$65,000 --\$65,085.40, which would bring their contract to \$443,000. They are asking for this increase.

We all have been experiencing an increase of everything, and the increase of operating

Page 21 Page 23 their business has gone up quite a bit for 1 cuts. 2 lawn care to most of our properties. 2 CHAIRMAN GREEN: Right. CEO: We had additional cuts --What I would say in favor of Total Lawn Care 3 3 CHAIRMAN GREEN: Right. is we have a Section 3 Program, which we employ 4 4 employees that are residents. CEO: -- throughout the year. 5 5 CHAIRMAN GREEN: So then, what is the new 6 Total Lawn Care is probably the most active 6 out of all of our vendors. Anytime we need a cost number, 449-10? 7 vendor to stand in at any job fair, they're the 8 CEO: Well, that's the 386- with the 662,000 8 first ones to be there. with the additional costs. That's outside of --9 9 And it's just not some frontline person out COMMISSIONER HOROVITZ: So the 386- is the 10 10 there. They usually have their brass there, 11 11 new cost. This is not -which is their upper management. CEO: Current cost. 12 12 13 They are trying to provide jobs for our 13 COMMISSIONER HOROVITZ: -- right. 14 residents. We do have several of our residents 62- is additional services. So ... 14 working with them, but they have been very MS. ORSINI: Mr. A., can I explain? 15 15 16 consistent with trying to utilize the Section 3 CEO: Yes, yes, yes. We can have Colene 16 17 Program. 17 speak on that. So we're asking the board to approve this 18 MS. ORSINI: I'm sorry. 18 19 additional \$65,000. 19 CEO: Colene is the procurement officer. CHAIRMAN GREEN: Is it 474- or what did you 20 MS. ORSINI: The 386- was our original 20 say, 433-? 21 21 contract. Last year we went to the board and CEO: No. 473-. 22 22 requested an increase to add five additional CHAIRMAN GREEN: I'm just having trouble 23 23 cuts for the three months that we're only getting calculating that number. 24 two cuts a year. We increased them to three cuts 24 Are you going off of the 386,647.50 plus the 25 25 a month, and that was the 62,000. This is on top Page 22 Page 24 additional services and plus the additional of that. 1 65.000? We're now going back and requesting the 2 2 3 CEO: Yes. You take the basic contract and 3 65- that will bring us to the 473-. add the \$65,000 to that, and we came up to Do you see that? 4 4 CHAIRMAN GREEN: Yes. But it seems like it 5 \$473,109.48. 5 CHAIRMAN GREEN: But it says, "New costs, would be 449- plus 65-. 6 6 COMMISSIONER HOROVITZ: Yeah. 7 449-10 (phonetic)." 7 CEO: Are you looking at --MS. ORSINI: Yeah. So 449- plus 65- --8 8 9 CHAIRMAN GREEN: The spreadsheet. I am sure 9 CHAIRMAN GREEN: Yeah. That's like 10 it's right. I just couldn't figure it out. 10 500-and-something-thousand, not 473-. CEO: What are you looking at? 11 MS. ORSINI: That does make sense. 11 CHAIRMAN GREEN: It says, "yearly cost." 12 I'm trying to think of why, because that's the 12 So I'm assuming that's an old cost, \$386,000, number that they gave us was the 473-. 13 13 14 and additional services of \$62,362.50. 14 386- -- hum. So then, what is the 449-10? 15 15 CEO: We'll go back and look at it. 16 It says, "New costs, 449-10." 16 MS. ORSINI: Okay. Yeah. Let me look at it, CEO: Are you looking at the actual 17 17 again. COMMISSIONER HOROVITZ: Can I ask a question? 18 resolution? 18 CHAIRMAN GREEN: Yes, the second page. 19 19 CEO: It does makes sense. If you've taken 20 Do vou see? 20 62,000 and then you add that up -- that's 21 CEO: The 386-21 additional -- that total cost between the 386,000 CHAIRMAN GREEN: Yeah. That's our current 22 22 and 62,000 gives you the 449,000. cost, right? 23 23 CHAIRMAN GREEN: Uh-huh. And plus the 62- of additional services. 24 24 CEO: If you add another \$68,000 on that, 25 CEO: Additional services for additional 25 that takes you over \$500,000.

Page 25 Page 27 COMMISSIONER HOROVITZ: It's not showing 1 renewal --2 the increased services and the price increase. 2 CEO: Yes --CHAIRMAN GREEN: -- do we send it out for bid CEO: Right. 3 3 COMMISSIONER HOROVITZ: I think all of the 4 4 CEO: -- yes --5 additional color around what a great partner 5 they are is important, but, just for process, 6 CHAIRMAN GREEN: -- or --6 CEO: -- yes. We put out -- not every year when we get a proposed price increase, do we then 7 put out an RFP? for a renewal, but, every time we decide to get 8 8 Or, do you look for alternative providers, 9 the services all over, again, everything we put 9 out we put it out on the street. We put it out in or do we just -- I think having relationships and 10 10 long-term relationships is very important, 11 the marketplace and put it out everywhere to get 11 additional vendors. 12 but this could be 65,000 every year. 12 13 And at what point do we say, "Okay. 13 CHAIRMAN GREEN: And then this increase of 65,000 -- this was brought to us at the beginning We need told get bids?" 14 14 of the year or middle of the year? 15 CEO: So one of the things is, us being a 15 CEO: Yes. 16 property management organization, we understand 16 what the industry is. So we understand it. 17 CHAIRMAN GREEN: Middle of the year. 17 CEO: Yes --18 Typically, we would do this work in-house. 18 19 CHAIRMAN GREEN: Okay. We opted to go out to have a vendor do it, 19 CEO: -- which typically doesn't happen. because it is more cost-efficient to have someone 20 20 21 CHAIRMAN GREEN: Right. 21 outside to do it. And, from our perspective, even if we were to 22 CEO: Because we have tons of contracts. 22 23 Typically, it does not happen, but, with the 23 attempt to do it, it still would run us past the nature -- because COVID has happened, 24 amount of money it costs to have a vendor do it. 24 25 many things have changed. So it's always real feasible for us to be able to 25 Page 26 Page 28 use a vendor. So, at the end of the day, we make some But, in terms of them asking for an increase, 2 adjustments, and that was an adjustment that was 2 3 we understand, and we understand the value of what 3 they're bringing to us, even outside of the COMMISSIONER HOROVITZ: Do we have a policy, 4 4 5 relationship. 5 or is there a policy? CEO: We follow procurement policy. 6 The work -- because we know the work just 6 as well as they know the work, the cost is 7 Everything that we do is governed by procurement 7 8 justifiable. 8 policy. We use the policy for everything. 9 COMMISSIONER HOROVITZ: So, just to follow up COMMISSIONER HOROVITZ: Thank you. 9 10 on that, is there a point where, after two years 10 I'll review it and all instructions. CHAIRMAN GREEN: And, "procurement --" of a price increase -- like is there a policy that 11 11 is that Jacksonville Housing Authority, or is that 12 says that, "We will get other bids every time a 12 price is --" 13 13 CEO: Well, that's why we enter into a 14 CEO: We use the HUD procurement policy --14 15 one-year contract. If we feel dissatisfied 15 CHAIRMAN GREEN: -- okay -with them, we don't have to go and add another CEO: -- because HUD funds us with funding. 16 16 17 year on it. 17 CHAIRMAN GREEN: -- okay. COMMISSIONER HOROVITZ: Yeah. 18 So that's why we had a one-year contract 18 19 with a renewal each other, provided that 19 CHAIRMAN GREEN: So we'll just wait and move 20 everything in the relationship and performance is 20 that to the meeting on Monday. where we expect it to be, then we move on to the 21 CEO: Yes. 21 22 next year. 22 CHAIRMAN GREEN: I mean we're going to have If it's not, then we will move out and do 23 23 to approve it anyway. I mean it's like between a 24 something else, but we have done that. 24 rock and a hard place, unless Chris wants to fight CHAIRMAN GREEN: But, when it comes up to 25 25

7	CFO: 648.	7	CEO: I have got to give all of the credit to
8	CEO: 648 units, and then we have another	8	the staff.
9	one that Dennis and his team with Michael and	9	The Finance Team has done an outstanding job
10	Gregory were working on yesterday to make sure	10	Michael, Dennis and Gregory.
11	it actually cash flows and looks good.	11	And then Colene is doing a phenomenal job
12	That's another 413 units.	12	over there in Procurement. She's probably one of
13	And, in terms of JWB	13	the best in the business.
14	COMMISSIONER HOROVITZ: Sorry.	14	And, in terms of our Compliance, Todd is in
15	Is that separate of JWB?	15	charge of the Nonmember Compliance Team.
16	CHAIRMAN GREEN: Yes.	16	They are all in sequence with Asset Management,
17	CEO: yes.	17	because we spent quite a bit of money for
18	COMMISSIONER HOROVITZ: Because they don't	18	Asset Management. Because most people like to
19	do large developments like that, right?	19	have outside people outside members do it.
20	CEO: Yes. Right.	20	His whole team is in the training of that
21	So we're looking to bring several more to	21	now, and they will go through tax credit later on.
22	the Acquisition Committee next month. JWB has	22	And then Ms. Evann and Antonio are doing an

4	COMMISSIONER HOROVITZ: I'm smiling,	4	Oh, Ms. Cathy, in Section 8, does a good job, and then you have Ms. Parker, who is our longest,
5	because there was a lot of redlining.	5	
6	CHAIRMAN GREEN: I saw that.	6	tenured employee, who has over 35 years here.
7	CEO: She made some changes to it,	7	And, actually, some of the people who work in this agency she mentored, as she worked for this
9	which was great, and that's what we look for	8	agency, to get them on a path to self-sufficiency,
10	is some impact and some influence and some	9	and they actually worked for the agency now over

19	CHAIRMAN GREEN: Yeah. It's exciting.	19	CEO: Yes. So he's on board, and we're
20	CEO: Yes.	20	getting the right people in the right place so we
21	CHAIRMAN GREEN: I know all the hard work	21	can be able to move this agency forward to be able
22	that you guys do.	22	to acquire properties to be able to help some of
23	CEO: Yes.	23	the folks that are on our waiting list.
24	CHAIRMAN GREEN: We got our bond rating this	24	And we want to make a dent in affordable
25	year.	25	housing, and a lot of folks profess that they want

11	I told you before, we have over 40,000 people	11	
12	on our waiting list, and the average income of the		
13	families on our waiting list let me go back.	12	
14	We have 40,000 people on our program,	13	
	and the average salary of the people in our	14	
15 16	program is only \$12,000.	15	
17	CHAIRMAN GREEN: So we have 40,000 people on	16	
	the program, and that could be like 100- if you	17	
18	include children.	18	
19	It's like 100-something-thousand?	19	
20	CEO: No, no. So I misspoke. Right now	20	
21	we have over 40,000 individuals we take care of on	21
