23	3030011d1411(g331100111	23	We are looking at our financials as of 2023.
24		24	This is the fourth month of our JHA fiscal year,
25		25	and we've made some modifications to the graph.
	Page 2		Page 4
1	APPEARANCES:	1	So I apologize if we missed updating any of
2	DWAYNE ALEXANDER, PRESIDENT/CEO	2	them.
3	CHAIRWOMAN HEATHER HOROVITZ COMMISSIONER HARRIET BROCK	3	So, for the year to date numbers,
_	COMMISSIONER ANDRE GREEN	4	our net income year to date is \$2,218,912.
4	COMMISSIONER CRAIG SHOUP	5	That takes into consideration our RAD properties,
5	LAWSIKIA HODGES, ESQUIRE (OGC) EVANN MORRIS	6	which are on a calendar year, and all of our
	ANTONIO PEREZ	7	programs.
6	LINDA SIMS DENNIS LOHR, CFO	8	Looking at our graphs, these are a little bit
7	GREGORY WILLIAMS	9	updated.
	MICHAEL EDGAR		So, for our central office, our year to date
8	COLENE ORSINI KORTE PARDE, ESQUIRE,	10	budget is \$2,114,000. We ended up the month at
9	CATHY HUNT	11	\$2,138,000. So we're just ahead of budget.
10	CORDELIA PARKER	12	And last year, just for reference, we were at
10	TODD AUBUCHON REYNOLD PETERSON	13	
11	DANIEL MITCHELL	14	\$1,686,000. So we're doing better than last
12	VANESSA DUNN LAILA DARBY	15	year.
13	EVIEV DVID I	16	For our expenses, our budget is \$2,031,000.
14		17	We're at about 1.8 million right now. So we're
15 16		18	ahead of our budget for the expenses, and,
17		19	for consideration, last year, we were just around
18		20	1.2 million. So we're better than budget,
19 20		21	but we're not quite as good as last year.
21		22	Looking at public housing, our budget is
22		23	5.7 million for our revenue. We're right at that
23 24		24	number, 5,688,000, and, for comparison, last year
25		25	we were at 5,981,000. So very, very close for the

Page 5 Page 7 1 past two years. 1 last year we were at 723,000 for expense. 2 Then looking at our expenses we budgeted 2 And then, for our reserves, we're right at \$5,478,000. We ended the month at \$4,668,000, 3 \$51,000,000 for the end of January. This includes 3 and, for comparison, last year we were just over 4 about \$20,000,000 that's unrestricted, and the 4 5,000,000. 5 5 rest is restricted. About 30,000,000 is 6 And then, for our Section 8 program, restricted for the programs -- primarily public 6 our budget is 2,349,000. We ended the month at 7 7 housing. 3,394,000. This is related to the MR, Mod Rehab, Every month we look at our Quick Ratio and 8 8 9 and the SRO programs. It's a work in progress. our MENAR. 9 So we have to update this a little bit. Our best properties right now with our 10 10 11 But, for reference, our revenue is up about a 11 Quick Ratio are Victory Pointe, at 24, half a million dollars from last year where we're and Riviera at 21, and our MENAR average is up to 12 12 13 at 2,800,000. For our expenses, we budgeted 13 13.48. So almost 13 1/2 months of operations. And then, for our RAD properties, we'll go 2,218,000. We came in at 2,750,000. So a little 14 14 through these rather quickly. This is the first 15 bit ahead. By comparison, last year we were at 15 month of their fiscal year. 16 2,814,000. 16 17 The grafts are a little off on this one 17 And then, for our Gregory West property, I believe. So our budget is at \$151,979. 18 we budgeted 547,000. We came in at 529,000. 18 19 Our actual is 147,250. So we're about \$4700 below So a little lower. Last year we were at 19 budget. For comparison, last year we were at 516,000. So we're about 13,000 ahead of last 20 20 146,000. So our income is up compared to last 21 21 year. CHAIRWOMAN HOROVITZ: Can I ask, what were 22 vear. 22 23 For our expenses, we are at -- our budget is 23 you expecting to gain in last year's actuals \$58,116. Our actual expenses came in a little 24 versus the budget? 24 higher at 71,869 primarily due to alarm 25 Why are you expecting such increase? 25 Page 6 Page 8 CFO: The property manager, who created the monitoring, and, for reference, last year we were 1 just under 60,000. So we're a little bit ahead of budget, felt that we could get some extra income 2 2 from rent increases, different things like that at 3 last year with our expenses. 3 For Centennial Towers, our budgeted income 4 the property. 4 5 So, just based on the occupancy and different 5 was 146,966. We came in at 147,091. So we came 6 6

items related to the property, they felt that they could get a little bit more.

So the budget is for the full year spread out evenly. So we still have an opportunity to catch up.

CFO: For our expenses, we budgeted \$337,000. We ended up year to date at 265,854. So we're doing better than budget for our expenses, and, for comparison, last year we were at 279,000. So we're doing better than last year, as well.

And then, for Brentwood, we budgeted revenue of \$937,000. We ended up the month at \$918,000. So not too bad, and, for reference, last year we were at 927,000. So we're a little less than last year and a little less than budget for our revenue. And then, for our expenses, we budgeted 827,000. We came in right at 800,000. So we're about \$27,000 below budget, and, for reference,

in just a little bit higher, about \$100 higher on our income. In comparison, last year during the construction, we were just under \$130,000. So we're about 18,000 over last year.

And then, for our expenses, we budgeted 93,625. Our actual expenses came in at 90,075. So we're good with our expenses under budget, and then, in comparison, last year we were at 78,314 during some of our remodel.

For Hogan Creek, our income budget is \$134,859. Our actual came in at 137,750. So we're slightly ahead of budget on our income, and, in comparison, last year we were at just under \$89,000 for income during our construction.

And then, for our expenses for Hogan, we budgeted 76,469. Our actual came in at 110,272, and last year, year to date, we were at 62,483.

Any questions?

CHAIRWOMAN HOROVITZ: Thank you for all of

I had a lot of stuff running 12 12 lowest responsible bidder and came in at around in my head -- what happens if we don't 13 13 14 \$386,000. 14 increase the money? 15 And, as we explained before, based on prior 15 They're under contract with us. pandemic numbers, they came back. MS. HODGES: And, if I could just say --I only say this, because this was recent counsel that we gave a client.

You know, when it comes -- and, Colene, you know, correct me if I'm wrong, but, generally speaking, when you go through a procurement process, not only is it important that you adhere to the process that was bid that was advertised that everybody was relying on for the obvious reasons, that we're always relying on that. That dictated whether people participated in the bid or not. There might have been many people that walked away, because they were like, "It didn't have an escalation clause."

So now those same people find out, "Oh, the JHA is now, in fact, increasing the cost," they actually could have a potential procurement action against the JHA.

That's just -- you know, that's basic procurement. I don't feel like I'm giving anybody any ammunition, because this is just general procurement rules to follow the terms of the RFP in awarding the contract and even post contract to make sure you're sticking, you know, to those

talking about, but the process -- the process -it's been my experience, in dealing with some of these vendors -- they are slow to realize the

financial impact it has on their business until

they get a little further down the road.

They're not as prudent as we are when it comes to managing finances and doing things in a timely fashion.

We send financial reports out every month. A lot of these vendors that we deal with have that capacity, but they are extremely slow.

We deal with vendors. We have a 30-day turnaround for invoices. We'll be dealing with invoices 120 days late.

So I'm not trying to justify or make it clear that this is acceptable, but things like that happen.

They did come, and they did ask for an increase.

Would they have known to do it at the beginning of the contract?

They should have, and that's why they came to Colene.

Maybe I should have known earlier, or maybe I should have responded earlier or made a decision
