So, if this --21 proactive in being, you know, solutioning and/or 22 22 sorry. thought oriented, you know, based on what we're 23 23 COMMISSIONER BROCK: Ms. Chair, again, trying to do. 24 24 if TD Bank did not know what the offer were, 25 And it's disappointing to me. I know, 25 they didn't even get an opportunity to even come

Page 29 Page 31 back and give us a different offer. Walker, you pointed out -- maybe it was 1 2 So I don't understand why we're going to Mr. Alexander -- they should be approaching us 2 approve -41 when TD Bank don't even know that this with ideas on how we can maximize what we're 3 3 -- we even have them out there. 4 trying to do in this community. 4 CHAIRWOMAN HOROVITZ: Well, I think that --5 5 And it seems like they're not managing the 6 I mean, just from my banking life. I think that relationship appropriately, and so, you know, 6 they knew that their rate wasn't incredibly 7 7 hopefully, this will motivate them a little but. 8 competitive. But it also gives us a little bit more diversity, 8 We've been loyal members, and they definitely 9 which I'm in favor of. 9 weren't, in my opinion, based on the terms --MS. been taken for granted with TD, and I think, 2 3 for lack of a better phrase, you know, they need to be aware that, "Hey, we're looking, 4 and we're paying attention." 5 CHAIRWOMAN HOROVITZ: Yes. 6 7 COMMISSIONER WALKER: And having a second bank is never a bad idea. It quite frankly, 8 9 just like in this situation -- it keeps everybody honest. 10 11 Right? 12 TD came out with their proposal at 10,000,000. Seacoast came out at 15-. 13 14 You know, it gives us a data point in the market. So, again, I'm in favor, as well. 15 16 I think that, just from a strategic board standpoint, it provides the housing authority with 17 optionality that currently it does not have. 18 CHAIRWOMAN HOROVITZ: And I just think that 19 to add more to that -- and we talked about this 20

3 it's in front of the board, and the board can take it up for discussion. 4 The other way I suppose, Chris, is that, 5 when we get to the next board meeting, 6 7 if this committee does nothing with it, then you could sort of, "discharge it --" what we call --8 9 out of this committee and bring it to the board. 10 That's another way to kind of get it, 11 but I just want y'all to understand that usually 12 the way the committee process works, when resolutions come to a committee. 13 14 the committee has to dispense with it first in 15 order for it to get to the board. 16 CHAIRWOMAN HOROVITZ: Thank you. 17 So we are going to then pass -38. 18 MS. HODGES: Well, it's either you do that to get it in front of the board, or Chris could 19 20 discharge it out of this committee when we get to 21 the next board meeting. I think that's another 22 option, as well. 23 COMMISSIONER WALKER: Commissioner Horovitz, 24

this is entirely up to you. You chose the committee. If you call it for a vote and it

CHAIRWOMAN HOROVITZ: Did someone say, "dispensing," though? I heard that word. MS. HODGES: Yes. CHAIRWOMAN HOROVITZ: Thank you. Thank you. Are we discharging or dispensing? I don't know. COMMISSIONER WALKER: Discharging. CHAIRWOMAN HOROVITZ: Discharge. Yes.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	And I'm sorry. I am assuming that all resolutions are going through legal. Is that still true? MS. HODGES: Yes. I've reviewed these. I have. CHAIRWOMAN HOROVITZ: All right. So all in favor? COMMISSIONER BROCK: Aye. CHAIRWOMAN HOROVITZ: I second. Aye. All right. JHA-42 passes for full board approval. Closing comments. I would like to have some discussion around Franklin Arms. I know there was some development this week. Mr. Alexander, can you share that with the board? CEO: Yes. So we had an appraisal come back at 2.5 million dollars as is. Also, there was an estimate at 4.9 million dollars. It was much lower than what we anticipated.

Page 39

Page 37

It would be worth about 10.1 million dollars.

We talked to the owner, Mr. Katta, and he was a little disappointed, because his estimate or appraisal that he had from a couple years ago had it at 7.5 million dollars.

And he's underneath the impression, with the new Jaguar Stadium and the new Ritz Carlton that they claim they're putting over there, it will yield him \$15,000,000 at that property or at least \$14,000,000.

So, when we had the discussion with him that the appraisal came back -- and we have to go back and review that appraisal.

Because the 2.5- is not a good assessment, you know, from my point of view, as the true value of that property.

Because it is 50-percent occupied, and, if you look at that from a cash flow, 50-percent occupied -- if you take an average of at least \$500 per unit, you're talking about at least \$600,000 a year.

So what happens is -- I had a discussion with him, and, originally, he wanted 8,000,000. He was donating back 250,000.

When I last talked to him, he was at

was around 120- to \$140,000, which we think they're worth.

So I'm having this discussion, because I want to make sure I get to the point with the board on what would they like for me to do?

Should we move forward?

Because most of the time, when you look at a property, who wants to pay more than what the appraised value is for a piece of property?

But I don't think -- this is my opinion -- that's a real good gauge on that valuable asset in that area at this specific time.

CHAIRWOMAN HOROVITZ: Commissioner Brock,
Commissioner Walker, do you want to go first?
Is your hand raised, Commissioner Walker?
COMMISSIONER WALKER: Yes. And, thank you,
Commissioner.

So a couple of things. In my world, I appreciate certainly what appraisers do and how they go about this.

But, in my world, the value of a property is what a willing buyer and a willing seller are willing to agree to. That is my general overarching theme.

I will say this. This, to me, is why we're

Page 38

7.2 million dollars. I have to have another call with him today, because he wants to know exactly what we want to do.

And my fear assessment, combined with the upgrades -- it could put us at a decent number with some upgrades -- about \$4,000,000 in upgrades -- you could do 4- to \$5,000,000 in upgrades, including the 1.5 million dollars that's coming from Lift Jax -- it's a strong possibility we could easily be out-of-pocket maybe close to \$5,000,000, if we got the property for 5.6.

But I would say this. I had to think about it, and I had a discussion with the team. That property has 100 units, and, if we renovate those units -- first, we have to look at the economic impact and the social impact it has in that community.

That property represents 50 percent of the crime in that neighborhood, and, if we can turn this property around, it would be a good partnership for that neighborhood, a good partnership with Lift Jax.

We went through the numbers preliminarily and think that the property could cash flow. Because, when we looked at it, the cost per door

doing what we're going, and what I mean by that is, you know, finding ways to revitalize property, community.

I also think this is why we do other deals, deals that may be a little bit more, you know, down the middle for us and have cash flow. So we can support deals that we do like this.

Notwithstanding the appraisal, I think we'd be doing a disservice to the population that we serve and are supposed to serve not to find a way to do this deal.

I understand that, from a valuation perspective, it may be a stretch. I understand, from a cash flow perspective, you know, we may be out-of-pocket until we stabilize that.

But I really think that, you know, when you weigh the pros and cons for the overarching strategic mission, this is what we're supposed to be doing.

So, you know, I think there should be conversation around, "How low can we go?"

But I don't think we should let this deal die. You know, I think that's a disservice to everything we're supposed to be doing.

I also think, you know, this will be the one

Page 40

Page 41

where -- Dwayne and I have had numerous conversations, and this drives me a little bit crazy.

You know, I'm going to assume -- and I lost the video. I don't know if that was intentional or not. People probably don't want to, you know, see me.

CHAIRWOMAN HOROVITZ: Yes, we do. COMMISSIONER WALKER: There we are.

I think, you know, Dwayne and I have had conversations about this, as well, and, Commissioner Horovitz, I think this is something the Finance Committee should contemplate.

The board is looking at these deals and making policy decisions around this understanding. There is an economic impact and financial impact to the agency.

But these are deals that, from a traditional underwriting perspective -- you know, a third party is going to look at, and go, "Well, you won't make money for three years. You won't make money for five years. It's not worth what you're doing. You know, why are you doing this?"

Page 43

on Normandy, when really, in reality, we were only getting the land. And then we had to come back and set it up where we can get those units.

Well, the same thing with this. We were told one thing, and now we are totally looking at something totally different.

And we are literally going to be upside down, and I get it that we'll get a profit in three years.

But I'm also still stuck back to our original properties that we have, because I truly have a passion that I want to see us have all of our units look good and be nice, not just new properties that we're acquiring here at the housing authority, but our existing properties.

And so that's why I'm just wondering, if we want to put that kind of money into that to do it, because we got to put the money into it to bring it up. I just didn't expect for us to be upside down in it. I didn't -- and that we had to wait three years to see a profit from it.

CHAIRWOMAN HOROVITZ: Thank you, Commissioner Brock.

So a couple of things. First, I think this is very different from Chase. That was a huge

Page 42

And the answer is, you know, because this is what we're tasked to do, and we believe that, with our team and the resources, that this will work out in our favor and will ultimately be an asset we can be proud of.

I just think we've got to set the guardrails, and say, "You know, look. The board is making policy decisions based upon what is being presented to us, and we're not asking you to renegotiate deals, to renegotiate terms. We're asking you to execute on what we're approving."

So I think that -- I really firmly believe that this is a deal that we should be executing. It's literally one of the top five blights -- maybe three blights in the city, and I think we have a duty to fix it.

CHAIRWOMAN HOROVITZ: Yes.

Commissioner Brock.

COMMISSIONER BROCK: Ms. Chair, I think we have a duty to do what we do, but then my struggle is -- my struggle is that it goes back to the Normandy property with Chase.

When we had the presentation presented to us, we thought we were getting 102 houses over there

Page 44

misunderstanding, and I think that we've gotten through that.

I don't feel like there was any misleading or any bait and switch on this at all, and, frankly, I'm not surprised at all that the appraisal came in low

This is about -- if you've driven by the property, this isn't about what I think anybody would pay for it.

So I think that mentally I went into this knowing that we would be upside down, and I don't think that we're talking about doing this deal because this is going to be a huge moneymaker.

And I have, you know, advocated for this deal from the beginning, that it's really so transformational for this part of the city, and I just think that addressing all of the crime it's going to be a huge add for the neighborhood.

There is a lot of development happening around it. Absolutely. And I think that the housing authority aligning with all that development and pushing affordable housing into this part of Jacksonville is just such a huge win for the agency.

And I think that Commissioner Walker

Page 45 Page 47 mentioned that, you know, we're looking at 1 units or four-bedroom units. it's units. 2 traditional financing. This certainly wouldn't, 2 And, typically, we normally spend about 30you know, pass traditional underwriting. 3 3 or \$40,000 -- 30- or \$40,000,000 -- more so But we have a unique opportunity because of 4 4 like 31- or \$32,000,000 for 100 units. 5 our, you know, financial options that we could 5 fund a deal like this. 6 And, when you look at the scheme of things. 6 7 So I think that that gives us a lot of 7 our waiting list, which is -- the one-bedrooms -- we have an average of five to seven years. power to really make something like this happen. 8 8 So I think that's super exciting. 9 That is our most challenged category on 9 our waiting list is our single bedrooms. 10 I love that the 100 units could be coming 10 online and that we could be, you know, bringing 11 These units will be low-income. 11 12 They will definitely be low-income, and there are 12 that housing to this neighborhood where people will really want to live after all this other 13 definitely one-bedrooms, which we need the most. 13 So I think that this deal -- just to point 14 14 development happens. back to the original deal, if we want to talk So I'm still very much in favor. I think 15 15 it's a great conversation for us to have with a 16 about the original deal, when we presented this to 16 17 the board, we were looking at paying \$8,000,000. full board. 17 So anything less than that is --18 My recommendation would be that we continue 18 to move forward, but I do understand your 19 CHAIRWOMAN HOROVITZ: Yes. It's a win. 19 apprehension. And you can address it. 20 CEO: -- yes. There you go. 20 21 CHAIRWOMAN HOROVITZ: And, Commissioner, COMMISSIONER BROCK: And my other 21 apprehension about it is -- because I do know that 22 I know that you mentioned a number of times --22 23 and I love that you care about our residents and 23 Mr. Alexander always say that we are doing affordable housing. 24 where they're currently living. And I know what 24 we've talked about -- and I believe we did 25 And my other question -- my other thoughts 25 Page 46 Page 48 are, how much is this going to impact our waiting schedule the Assessment Management Meeting --1 list? 2 CEO: Yes. 2 3 I'm talking about our waiting list. 3 CHAIRWOMAN HOROVITZ: -- that we are setting I'm not talking about affordable housing. 4 aside funds to make sure that the properties that 4 I'm talking about our waiting list that people 5 5 we currently have are being maintained and that 6 have applied for housing. they're nice like you said. 6 7 How much will it impact -- even though it's 7 But the reality is we're going to have a 100 units, how much is it going to impact, 8 8 mix. You know, the newer properties -- whatever 9 or are we going to do those just like we did -- you know, new construction is just niceer. 9 10 those JWB properties? 10 So we do need to make sure that we're setting 11 Just put it out there for affordable housing aside and taking care of the properties that we 11 12 for families that are making under ... 12 currently have in our portfolio, but, as we bring 13 Is it 80,000, you said? new properties online, there will be differences. 13 14 CEO: 80 percent of the area median income. 14 And I think that that's just the natural mix. COMMISSIONER BROCK: Right. So that's 15 15 CEO: And I would add to the equation that, 16 another thing that I'm wondering about. typically, we do build -- or we're attempting to 16 17 Is it going to be providing houses for 17 build, but we are focused on low-income, which is 18 people who are on our waiting list, or is it going 80 percent or less. 18 19 to be just providing affordable units? 19 So, on our waiting list, typically, CHAIRWOMAN HOROVITZ: Do you have a specific 20 some folks are on there that are over income. 20 21 answer for that? 21 They just don't know their status until they apply 22 CEO: Thank you. Thank you, Commissioner. and we go through the application process. 22 Let me just put this out there. One, there 23 23 Some of them are eligible, and some are not is 100 one-bedroom units, and you have to look at 24 24 eligible. It's not as if everyone on our waiting it in terms of units, whether it's three-bedroom

25

list will be a qualified tenant in our program.

Page 49 Page 51 1 So we specifically focus on that 80 percent 1 and they come out at different times of the year. 2 or less, and that's where the big gap is, 2 So depending what's out there we typically apply. in terms of us doing work and anyone else doing CHAIRWOMAN HOROVITZ: Are there any other 3 3 work in Jacksonville or in Duval County. comments on anything that we have been discussing? 4 4 Commissioner Walker, are you still there? Everyone else makes affordable housing 5 5 COMMISSIONER WALKER: No. 6 units. It's to a point now, when you look at some 6 of these deals, they're going from 120 percent to But I would, Dwayne, on the agenda make sure 7 7 8 140 percent AMI, and have no low-income families 8 we call out this specific deal. I know you do a general update, but I really want to get this 9 9 Then there are other organizations through specific deal and have a board conversation and 10 10 11 the City of Jacksonville that are doing some work, 11 ultimately board direction for you and the team but they're more so targeted towards homelessness. 12 coming out of that meeting to make sure we know 12 13 And I had a discussion with Councilman 13 how we're proceeding. Carlucci, just the other day, just two days ago, 14 CHAIRWOMAN HOROVITZ: And then, before we 14 and he wanted to clearly understand. Because he's 15 close, we had been talking about Westwood. 15 I think that there was some back and forth. 16 16 now the chairperson for the Homeless Committee for 17 17 Was there an update on that deal? CEO: Yes. So we had a meeting yesterday. And I explained to him that, if you do not 18 18 shut off the faucet with low-income families, 19 I met with CSG, as well as BMO, and I had a 19 meeting with them yesterday. And the day before 20 then everybody is going to be homeless. 20 that it was a group of us, including Integral, To be able to deal with homelessness. 21 21 22 you have to address the low-income families, 22 on the progress. and I mentioned several times in our meetings that 23 BMO -- from their perspective, the deal is 23 moving right along on schedule. We're on point. 24 we house over 40,000 individuals. And the average 24 25 income is anywhere between 12- and \$14,000, 25 All the reports are in. Page 50 Page 52 which is \$60,000 less than the area median income. Now CSG is going through the whole process 1 We're talking about extremely low-income. 2 with BMO attorneys to make sure we have everything 2 3 CHAIRWOMAN HOROVITZ: Thank you. 3 scheduled for the bond process so that deal is Commissioner Brock, do you have any other 4 on point. 4 And one of the things that I put out to --5 comments? 5 COMMISSIONER BROCK: Nope. CSG wanted to get a little tied up into 6 6 7 CHAIRWOMAN HOROVITZ: I'm sure that we'll 7 negotiating some of the terms that the board originally approved of, in terms of the \$2,000,000 8 have this conversation in our full board meeting, 8 9 but I did want to have it -- this conversation --9 of the assessment management fee. 10 here. Because it would be my recommendation from 10 And I told them that we will not entertain a financial perspective that we would continue 11 that only if in the sense that the board approved 11 moving forward, but we can discuss it as a group. 12 the terms as is. 12 If we can come back with 1.5 million dollars, As an aside, are we exploring other funding 13 13

being shared in Boardable.

CEO: Yes.

that as a board.

But, to come back because they wouldn't

I think that all of our documents are now

CHAIRWOMAN HOROVITZ: Can I make a request?

CHAIRWOMAN HOROVITZ: For me, I'm not seeing

everything. I know you-all love Bordable,

I know we do apply for grants.

It would be nice if we could include a list

of the grants that we're pursuing, the amounts

and maybe an update so we can have a sense of how

CEO: Yes. Most of the grants we applied for

-- we applied, and, on a couple of the RAD deals,

We also apply for different programs,

Do we have a list?

that might impact the agency.

Is that possible?

we got some sales money.

Page 53 Page 55 But, as we get memos, as we get reports that 1 these deals are new to the housing authority. you think are important for the board to review, 2 I totally understand that. 2 But new doesn't mean that we should, rather than us having to hear about a report and 3 3 then asking for it, can we have some process 4 you know, shy away from them or not look to pursue 4 them. And I just -- based on some of the 5 that, if you get a memo from CSG, for example, 5 that we have a financials folder of some kind? 6 conversations Dwavne and I have had. I feel like 6 people are looking for reasons to not do something 7 Or just organize us so we can have access to 7 anything that would be important for us to be versus looking for solutions. 8 8 looking at. I feel like there's more I want to be 9 And I think we need to be -- the direction 9 from the board is, "Is there a solution to make seeing. 10 10 11 We're having meetings that have minutes that 11 sure that the deal works protecting our come out of them, and like we're not -- I don't interests?" 12 12 13 think we have as much transparency into all of 13 But, you know, not just saying, "Oh, no. these deals as I think that we could have. We don't understand. We don't want to do it this 14 14 And I'm sure that they'd be willing to provide 15 15 updates. 16 16 That does us a disservice. 17 Usually, when I have calls, you get, 17 CHAIRWOMAN HOROVITZ: Absolutely. you know, follow-up. 18 And I don't want to have more insight to slow 18 "You know, this is what we discussed. 19 things down or put a stop sign up. I really want 19 This is what we agreed to." 20 to just have the awareness so I don't have to ask 20 That would be really great information for 21 questions and slow you down in getting the answer. 21 me, and I'm sure the rest of the board would 22 22 COMMISSIONER WALKER: Agreed. 23 appreciate that, if that's possible. CHAIRWOMAN HOROVITZ: So that's really what 23 CEO: Yes. So everything we basically do is 24 24 I want access to based on an instruction from the board moving 25 Commissioner Brock. 25 Page 54 Page 56 forward with the deals. COMMISSIONER BROCK: And, Ms. Chair, 1 So anytime we go through the due diligence 2 I ditto what you just said. I'm not trying to 2 3 period, there are some reports that need to be 3 slow anything down or stop anything. generated. If you'd like to have the reports, COMMISSIONER WALKER: No. 4 4 COMMISSIONER BROCK: I just want to make 5 definitely. 5 But we don't change any direction that the sure, like you just said, that we are aware in how 6 6 7 7

CHAIRWOMAN HOROVITZ: Okay. I think that my recommendation would be that, as we're having meetings, if we could share, "We met this. We discussed this. This was the resolution," as much as that is possible. I think that would be helpful.

COMMISSIONER BROCK: Yes.

COMMISSIONER WALKER: I concur. I think having that information so that we can look at it -- I just go back to this, Commissioner Horovitz and Commissioner Brock.

I have had some calls with Dwayne where I continue to be frustrated. I appreciate that

the process is going. CHAIRWOMAN HOROVITZ: Absolutely.

COMMISSIONER WALKER: To be clear, Commissioner Brock, that was not directed towards you whatsoever.

I think the board is actually in a great way and to a point where we're proactive and forward-looking maybe even more so than some of our vendors are.

Right?

I think we need to push our vendors to be solution-oriented forward-looking as much as the board is, as well, if that makes sense. CHAIRWOMAN HOROVITZ: Absolutely. Okay. If there is no further discussion -anything, Mr. Alexander?

CEO: No. I'm good.

24 CHAIRWOMAN HOROVITZ: Ms. Hodges, did we do 25 everything okay?

I thank you, Ms. Chair. Thank you. 9 Dated this 1st day of November, 2023. 10 CHAIRWOMAN HOROVITZ: Thank you for your 10 11 11 contribution, as well. 12 12 CEO: And I would add thank you for that, 13 13 Commissioner Brock, because it has been very Carol DeBee Martin Notary Public State of Florida challenging, as you-all know. 14 14 My Commission: HH 038064 15 That Chase deal was very challenging to get Expires: 12-29-2024 15 16 that to the table, because it was almost off the 16 table. And the same thing with this Westwood 17 17 18 deal. 18 This was extremely challenging, because the 19 19 seller literally wanted to walk away from this 20 20 deal at least five or six times. 21 21 And we kept it going to a point that BMO is 22 22 like, "It's not going to happen," as well as 23 23 Integral, "It's not going to happen." 24 24 But JHA and the team navigated through that 25 25

process, and we are going through the due diligence process. 2 3

Because, at the end of the day, we don't want to just spend our time or just be spinning our wheels if we haven't accomplished the fact that we set out to accomplish those 556 units -- I mean 256 units.

CHAIRWOMAN HOROVITZ: Thank you.

Thank you, Dwayne and your team. I know you guys are working so late, and I really appreciate all that work, and, Commissioner Walker, for your leadership. This is just a fantastic team, and I love working with you-all to help solve things for housing in Jacksonville.

So, if there's nothing else, the meeting is adjourned.

Have a great day, everyone.

COMMISSIONER WALKER: Thanks, y'all. (Whereupon, the Finance Committee Meeting concluded at 10:06 a.m.)
