| 2 | March 16th, 2023 Asset Management Committee | 2 | CHAIRMAN WALKER: Okay. Great. |
| 3 | Meeting's minutes signify by saying, "Aye." | 3 | COMMISSIONER BROCK: Mr. Chair? |
| 4 | COMMISSIONER BROCK: Aye. | 4 | CHAIRMAN WALKER: Commissioner. |
| 5 | COMMISSIONER SHOUP: Aye. | 5 | COMMISSIONER BROCK: Mr. Alexander, before we |
| 6 | CHAIRMAN WALKER: Motion passes. | 6 | go any further because I know Mr. Chair asked |
| 7 | Thank you very much. | 7 | you about the money let me ask you a question. |
| 8 | Mr. Alexander, we're already to you. | 8 | Would that come in effect to the residents |
| 9 | CEO: Thank you. | 9 | their annual or is it in effect now? |
| 10 | CHAIRMAN WALKER: Thank you. | 10 | CEO: So, no. It's not in effect now. |
| 11 | CEO: Good afternoon, Commissioners. | 11 | We talked it over with finance. We'll probably |
| 12 | COMMISSIONER BROCK: Good afternoon. | 12 | come back to the board and increase the payment |
| 13 | CEO: Before I get started, I just want to | 13 | standards and ask the board to approve similar to |
| 14 | put out that we got some good news about a | 14 | what we did before, to approve the payment |
| 15 | week-and-a-half ago for our Section 8. | 15 | standards, because basically that's what the money |
| 16 | We got an additional 4.7 million dollars. | 16 | is basically used for. |
| 17 | So, typically, most housing authorities got | 17 | COMMISSIONER BROCK: So you haven't broke it |
| 18 | that money, because most agencies were complaining | 18 | down like in percentage. Like he was saying, |
| 19 | about the fair market rents not being high enough. | 19 | we get a 5 percent to everybody. So you haven't |
| 20 | And, as you know, this board approved | 20 | broke it down. |
| 21 | \$2,000,000, which increased the payment standards | 21 | CEO: No. Typically, from what we did |
| 22 | by 5 percent, and now the fair market rents came | 22 | before, \$2,000,000 ended up being like 5 percent |
| 23 | out in October. | 23 | right across the board |
| 24 | So our utilization is up to about 95 | 24 | COMMISSIONER BROCK: Right. |
| 25 | percent. So we really want to push the button. | 25 | CEO: which increased not the fair |
| | Page 6 | | Page 8 |
| | | | - |
| 1 | We received that 4.7 million dollars. | 1 | market rent, but it increased the payment |
| 2 | CHAIRMAN WALKER: So, Mr. Alexander, | 2 | standards. |
| 3 | the 4.7 refresh my recollection. | 3 | COMMISSIONER BROCK: Right. |
| 4 | Those are funds coming from HUD to offset the | 4 | CEO: And, fortunately, since we're at |
| 5 | increase we previously approved? | 5 | 95 percent, it would be fabulous if we were at |
| 6 | CEO: No. | 6 | 89, and we were struggling. That would be a big |
| 7 | CHAIRMAN WALKER: No. | 7 | boost for us, but we are in a good position right |
| 8 | CEO: No, no. We had the money to approve | 8 | now. |
| 9 | that before. | 9 | And it's very critical, because we're coming |
| 10 | CHAIRMAN WALKER: Right. Okay. | 10 | to the end of the fiscal year where the |
| 11 | CEO: Typically, what HUD does every year is | 11 | allocations they will be giving you next year is |
| 12 | they do a proration. So they may allot a certain | 12 | based on your utilization for this year. |
| 13 | amount of money to all of the different housing | 13 | CHAIRMAN WALKER: So, is this a sorry, |
| 14 | authorities, and, when they don't use it, | 14 | Commissioner. |
| 15 | they have money left over. Then they go back and | 15 | Is this a use-it-or-lose-it? |
| 16 | allocate it to all the other housing authorities | 16 | CEO: No, not necessarily. It is just that |
| 17 | as additional money. | 17 | they just give you that proration. They always |
| 18 | CHAIRMAN WALKER: So, does this go to | 18 | give that money based on what's left over. |
| 19 | central office, or where does it go? | 19 | CHAIRMAN WALKER: Okay. |
| 20 | CEO: It goes strictly for our Secion 8 | 20 | COMMISSIONER BROCK: Thank you. |
| 21 | Program. | 21 | CEO: You're welcome. |
| 22 | CHAIRMAN WALKER: Okay. | 22 | COMMISSIONER BROCK: Thank you, |
| 23 | CEO: We acquire some administration fees | 23 | Mr. Chair. |
| 24 | from it, but it's specifically for the program. And, typically, they normally do it at the end of | 24 | CHAIRMAN WALKER: Thank you. |
| 25 | And typically they permally do it at the and at | 25 | CEO: So each month we go through the five |

Page 9 Page 11 CHAIRMAN WALKER: -- and I didn't see in here key performance indicators, and, basically, 1 the Asset Management Meeting or Committee 2 the new single-family homesites. 2 Did I miss them? is to really let the board understand what is 3 3 CEO: No, you did not miss them. You did not going on with the organization operational-wise 4 4 miss them. We didn't put them on there. 5 in rent collection, recertification, vacant unit 5 6 turnaround, work orders and inspections. 6 They will be on there next month, but they are "Rent Collection." As we see in the the ones that we closed on, the 20 we closed. 7 7 8 previous reports, our rent collection was down. They're 100-percent occupied. 8 9 It was very low, and, as you see on the screen CHAIRMAN WALKER: Congratulations to you and 9 here, last month it got up to 95.43 percent. your team. That's amazing. That's fantastic. 10 10 11 And that surpasses -- as you see in the last 11 (Everyone clapped.) 12 quarter, January was at 93.5 or basically 94. 12 CEO: Thank you. We want to thank Ms. Dunn 13 February it went up to 93.8, and you see March is 13 and her team --14 at 95.3. CHAIRMAN WALKER: That's awesome. 14 15 So overall it's at 94.27 percent, which is a 15 CEO: -- who are very diligent. major increase considering just five months ago we 16 16 MS. DUNN: Thank you. 17 were at 88 percent. CEO: We did sit back, and we went through 17 CHAIRMAN WALKER: And, Mr. Alexander, 18 18 the finances on these things, which I don't want 19 this is percentage of rent billed, correct -to just go all of the way in. But it's very 19 CEO: Yes --20 20 unique that we leased up these units so fast. CHAIRMAN WALKER: -- not total occupancy? 21 We were able to use a Section 8 voucher on it. 21 CEO: -- no. 22 22 And we went back, and we thought about it. 23 CHAIRMAN WALKER: Okay. 23 It happens on a whole other level, because, CEO: That's the percentage that's billed and 24 technically, we have these units for low-income 24 collected. 25 25 families. And, when we went back and we thought Page 10 Page 12 about it, there's a lot of possibilities since we CHAIRMAN WALKER: Great. That's a good 1 acquired these units. question. 2 2 "Occupancy." So, in public housing, 3 One, we had these at 30 percent AMI. 3 We can actually go to 40 and 50 and really 4 4 our occupancy rate is 99.61. Affordable housing increase our turnaround, as far as getting money is 99.20. We went up just a little bit. 5 5 back. And then we can go from 40 to 50, Last month we were at 99.20. So we just went up 6 6 7 and, in some cases, we can go to 60 percent. a little bit. We had 99.41. 7 8 What it is is that basically folks are 8 The other thing is that we were sitting down 9 talking to the financial advisors that we thought 9 doing everything to stay in their units. 10 They're staying in compliance to stay in their 10 about it, but we didn't really think about it. We can actually them as they are, and, after we 11 11 close on this other 30 and package them It is very challenging times with units out 12 12 there. So we haven't had a whole lot of turnover. 13 all together, we can actually automatically use 13 As you see right there, the occupancy rates 14 our Faircloth on them and then package them as 14 are just about 100 at every single site. 15 RAD. 15 In the real world, that's what determines CHAIRMAN WALKER: Oh, that's interesting. 16 16 if you need to do some building. In the real 17 CEO: Yes, which would bring us a higher fair 17

| 2 | CEO: Yes. We use the bottom of like | 2 | that manages that property. |
| 3 | what is it, like 500? | 3 | They own the property, and years ago they had |

| 8 | So it wasn't a real like, "You've got to have | 8 | someone in that development who knows how to |
| 9 | 650," or anything like that. We used the | 9 | manage affordable housing, but they don't know how |
| 10 | bare minimum, which is basically for | 10 | to manage low-income housing. And they're good on |
| 11 | identification purposes, as well. | 11 | one side of the coin. |
| 12 | COMMISSIONER BROCK: Okay. Thank you, | 12 | We have I think it's 84 or 87 |
| 13 | Mr. Chair. | 13 | MS. DUNN: 84. |
| 14 | CHAIRMAN WALKER: Thank you. | 14 | CEO: 84 units over there, and they are |
| 15 | Mr. Alexander, thank you. | 15 | struggling with the recertifications. |
| 16 | CEO: Thank you. | 16 | And they want to use two leases there when there |
| 17 | "JHA Unit Turnaround Time." | 17 | only should be one lease. |
| 18 | If you look at this chart, we are at | 18 | And the manager there now is probably maybe |
| 19 | 11 days. Last month we were at 12 days. | 19 | the fifth or sixth manager depending |
| 20 | We are actually moving down this path of going | 20 | over the years, and she is by far the best one. |
| 21 | back to where we normally would be. | 21 | And, if you can recall several months ago, |
| 22 | The grade of 10 days or less is an A, | 22 | it was up to 100-and-something days, and she has |
| 23 | and we're just one day away. And, if you look at | 23 | worked diligently to bring those numbers down. |

And I asked why we weren't getting the notifications. They said they were sending them. They were sending them to personnel, but I haven't seen them since I've been here. And they put us on the list for real estate.

And I clearly put out there that, as the housing authority is the housing wing of the city, why is it that the housing authority doesn't get first right of refusal of all of the properties that they have that they give to the nonprofits?

CHAIRMAN WALKER: I'll save -- that reminds me, but I'll save that until my comment section. Go ahead, Mr. Alexander.

CEO: Okay. Yes. VASH is our challenge at 76. EHV is at 98, and Mainstream is at 100. And here's where it's so critical with the VASH being at 76. We're getting As in everything else, but that 76 is a C to me.

We'd like to be able to ask for more VASH vouchers. The higher the utilization the easier it is to ask for more vouchers.

Page 35 The landlord would get that payment and not notify

the housing authority they got that payment.

We have to find out a couple months later, after we paid them a couple times, that they skipped and moved, and they got that money.

So what we do is, if they have any other properties on a program, we do not allow them to get paid. So that's a quick way to get it, or, if we have to, we send them a strong letter to make sure that they pay us our money.

So the grand total year to date is \$25,000. \$25,000 total, and paid to date is 91,000 -almost \$100.000.

In terms of GovDeals, we still take our old surplus equipment and sell it off so there is no discrepancy with that. We let each individual who has a concern with buying any of our equipment -- to keep us ethically sound, we send it to GovDeals.

Our Audits and compliance -- we have 57, which was public housing. 42 for Section 8. Special referrals -- there's two in public housing and three in Section 8.

The Compliance Department acts as our own internal OIG or OGC to make sure that the files

Page 34

Page 36 are in place to make sure that we are in

compliance in case we get audited from anybody.

It would show we're in compliance.

which was more than \$400,000.

3 "FSS Program." They delivered more than 4 1,000 deliveries. That should be March, 2023, 5 but we have 370 active public housing and 6 7 Section 8 participants. And we just approved -or accepted grant money that we received, 8

> But our FSS Program is the lifeline of this housing authority. It provides all of the services, the rent case management, 90-day follow-up, new enrollment, closed out, and the graduates totaling \$38,000.

Folks get to stay on the program for five years and achieve their goals. Some of them -new house, new car, graduate from school. And, when they graduate, all of the money that they put in escrow -- they get that money back.

Forfeiture at \$17,000. For some strange reason, they fall out of the program. That money stays in the program to help people in the program that do not have goals as it relates to money.

So folks that are in the program that may be going to school and they may have a problem

COMMISSIONER BROCK: Right.

CEO: It's hard to ask for an additional 50 or 100 vouchers when you're at 76.

"Human Resourses." We currently have 194 employees. Temporary employees -- we have 8.

Current vacancies is 36. We had 14 job

classifications posted. New jobs posted -- 5. Applications received is 626. Interviews

scheduled is 89. Applicants Pre-screened -- 19.

10 Offers of employment is 22. New hires -- 13. Promotions is 2, and year to date we have promoted 11

11 people overall. For the last two years, we promoted 21 employees.

So, again, I always say, "The Jacksonville Housing Authority does not have a glass ceiling."

In terms of compliance, we have fraud for the month, and we had the bad debt plus public housing. We collected more than \$10,000. In our Section 8 -- 5,000. So we collected \$15,000 for fraud, and, for bad debt, we collected \$9,000. 2500 for public housing, and 6,000 for landlords.

Typically, the landlords get this \$6900. We spend more than \$5,000,000 a month on landlords, and sometimes tenants skip a move. Page 37

with their car but they don't have any money in escrow. So we take that forfeiture money.

HUD gave approval for that a couple years ago, to be able to use that forfeiture money. So it's not like it comes back to us. It's being able to use it within that program.

The "Self-Sufficiency ROSS Program." We had 319 active participants. 76 direct case management. 90-day follow ups.

That whole ROSS Program is a grant program. It helps the residents out. It's the core of our business, making sure that our residents have all the services.

And I'm sure Commissioner Brock will tell you that, because she frequents all of the meetings and activities. Our Resident Services Department is extremely well in managing these programs. That's also a grant program, as well.

COMMISSIONER BROCK: Yes.

CEO: Section 3 -- we always advocate for a Section 3 Program. They just recently had a conference, or Mr. Murray just attended a conference.

And we just had three days of training and facilitating activities up at Southwind,

Page 39

So, regardless if the security guard is there or not, they can get in the building. So I just want to thank Ms. Evann and her team in getting those key fobs.

(Everyone clapped.)

CEO: And we sort of took the same state of the art equipment that they were using over at Hogan Creek for it.

"Procurement." The total contracts is more than \$24,000,000. The key point here is that the M and W and the DBE is more than \$1,000,000, and the minority participation is 7.3 percent.

We typically try to push this out there, but what normally happens -- normally happens is the fact that most of the folks that we use are unit turnaround.

We're trying to get other craftsmanships and other organizations to get involved more so than just that unit turn.

We are at 39 current contracts. We have tree trimming and pruning and floor overlay at Durkeeville, the window replacement, the Internet service provider and VoIP services and development services. So we have a couple of solicitations out there.

Page 38

but we always try to make sure that folks get inside our Section 3 Program.

It's one of the best programs in the country, not ours, per se, but this program, if utilized, is one of the best in the country.

"IT." We went out to several of these properties. Me and Ms. Dunn and several of the staff members went out to these properties and found out that most of these folks at these properties complained.

We go to Brentwood. There's a big complaint at Brentwood about the security guard leaving, and the elderly people cannot get in the building.

We go to Hogan Creek -- same issue. We go to all these different sites, especially Centennial Towers.

So we spoke about this before, and we tasked Ms. Evann Morris and her department to get the key fobs for these sites. Because we went out and met with them so we can get these key fobs at the sites.

And we are proud to say that they have already started to appoint them, and a couple sites have already received their key fobs.

Page 40

"Upcoming Bid." We had the HVAC, pest control, lift station. Recent awarded

contract was Lewis Walker Roofing.

Kubas Kellar was our fee accountant,

5 and CGS Advisors are our financial advisors.

We piggybacked on both of those contracts from other housing authorities.

And that concludes the Asset Management Report.

Any questions?

CHAIRMAN WALKER: Commissioner Brock, do you have something?

COMMISSIONER BROCK: No. I don't have any questions, per se, but I didn't see her in the room, our Director from Resident Service.

I just wanted to say that, on last Wednesday, it was around five o'clock, because she was in a meeting with us, the RAD Board, and there was a resident that 1300 sent over to Hogan Creek to see Ms. Parker.

Of course, the resident was in distress, pregnant, the whole 9 yards, and no lights on. And we were able to resolve her problem and get her some lights on, got her some food, got her some services. We stayed to make sure that she

then Commissioner Shoup.

Page 41 Page 43 was secure. 1 -- and we talk about these in our meetings, And I didn't know if you knew, Mr. Alexander, 2 because the last report that we received we had 2 51,000 phone calls. about it. But we made sure she was secure, 3 3 Out of 51,000 phone calls, it was close to and I think, if I make no mistake, she was from 4 4 about 18,000 of them that ended up going to 5 Lindsey Terrace. 5 COMMISSIONER SHOUP: Oh, wow. 6 voicemail. So it was only like 6.6 thousand phone 6 calls answered. 7 CEO: Oh, yes, yes, yes, yes, yes. 7 And, what happens is we found out that it was 8 That was good. 8 CHAIRMAN WALKER: Commissioner Shoup? 9 a miscommunication because of the workload. 9 COMMISSIONER BROCK: So I wanted to just Some folks were underneath the impression that 10 10 11 give Ms. Parker a hand in her absence of how 11 they shouldn't answer the phone between 9:00 and she diligently took care of that situation along three o'clock and just let them go to voicemail 12 12 13 with me. 13 and not pick them up. CEO: I would say, Commissioner, Yes, yes. 14 14 that Ms. Parker is our longest tenured employee So they were not answering the phone calls 15 15 here. I keep saying, "38 years," and she keeps between 9:00 and 3:00 and just answered them from 16 16 17 trying to push it back to 35 years. 17 3:00 to 5:00, which is insane. So we jumped on But we have several employees that she that. 18 18 19 mentored and provided services that are currently 19 The other thing is that, along with the same working for the housing authority now with more customer service, you have some folks that will 20 20 than 20 years. They will call you once and She's committed to her craft. 22 22 call you five times until you get it. 23 CHAIRMAN WALKER: Commissioner Shoup, So we made sure that each department --23 anything? 24 24 we went to every single department to make sure COMMISSIONER SHOUP: Not on that, but, 25 25 it's clear that folks have to answer that phone. Page 42 Page 44 On top of that, we're making sure that we get just, in general. 1 this report -- not once a month. It was too late. 2 Is it possible --2 CHAIRMAN WALKER: Let me do one thing --3 We want to see that report on a weekly basis. 3 We want to see it every day, but, at the latest, 4 COMMISSIONER SHOUP: -- yes. 4 CHAIRMAN WALKER: -- if I can. Let me ask 5 on a weekly basis so we can talk about it. 5 this. 6 And we have to see an improvement on that, 6 as well. So I asked last month and I appreciate 7 7 CHAIRMAN WALKER: Is there anything that we 8 Ms. Morris putting together the call log. 8 9 can do as an asset management side or a board 9 I see this. So this is a very, very telling 10 data point. 10 side, you know, directing resources, directing studies? So, by my estimation, we're picking up less 11 11 Is there anything we can do to help? than -- by virtue of the call volume, we're only 12 12 CEO: I think one of the -- just ask me picking up about 20 percent of the calls, 13 13 meaning answered or returned. 14 personally from the temperature of the 14 Senior Staff. One of the key things is the staff Does that make sense? 15 15 Just the back of the envelope. I know we 16 has to pick the phone up. So you're chasing your own self trying to 3 3 COMMISSIONER BROCK: Okay. Mr. Chair to return all these voicemails from people who have 4 4 Mr. Alexander, as our Chair just asked that 5 5 already called, and you start returning calls. 6 question, is it anything we can do as a board? I'm sure some of these folks are, 6 "Oh, yes. I talked to somebody. I got through 7 Have you even thought about it, 7 Mr. Alexander? finally, but I've already talked to them." 8 8 Maybe that, if we could hire -- I don't know And so you're burning people. 9 9 -- maybe five people, six people just for phone We use an ACD call answering system where it 10 10 11 calls, just to take the calls --11 just puts them in a queue. I'm just asking a but, if you wait on hold, you're going to get 15 15 question. somebody. 16 16 17 Could we do that? 17 Just for me, it would not -- I do not have CEO: -- very good point. We will have IT any heartburn if there was no voicemail option. 18 18 19 looking into some solution into that issue. If people want to hang up and then call back 19 We do have an answering service that answers our later, they go back to the queue. It is what it 20 20 phones after five o'clock and on weekends. 21 is. You can route it and all these things. 21 22 Now, in terms of having that during the week, 22 I'm sure that's some of the stuff that's going it still creates the same problem. We have set 23 out and all that. 23 up call centers other places. We do the same thing in our office now. 24 24 If, in fact, we have a call center set up 25 25 We did it with the city through the system that Page 46 Page 48 during the daytime, you have to have very skilled was in-house in the Fire Department. 1 trained people who actually know our programs. 2 2 But it's just some comments there. 3 And, if the outside people call them and they Like I say, it wouldn't upset me if you did not 3 defer the phone call to me and I'm still not 4 4 have a voicemail option. They can do that on a different way. CHAIRMAN WALKER: Commissioner Shoup. But I do agree trying to outsource it or hire 11 11 some part-time people to get in may get very 12 Sorry. 12 CEO: -- while looking for software to difficult to teach them everything. 13 13 14 address the issue. 14 You kind of get the workload resolved, 15 COMMISSIONER SHOUP: So, to me, some of 15 and then it takes a lot. It sounds like to me this is operational versus governance. that you guys have a plan to rectify it. 16 16 CEO: Yes. CEO: Okay. Yes. 17 17 COMMISSIONER SHOUP: I'll toss out a couple CHAIRMAN WALKER: Thank you, 18 18 19 things from a guy who has run -- I ran the 19 Commissioner Shoup. 20 Public Defender Call Center for a while, 20 I mean, Mr. Alexander, I'll go back to this and we have a small call center in our office. 21 and say it would not hurt my feelings one bit if 21 we're the most technologically advanced and It would not upset me if people can't leave a 22 22 voicemail during the day. Any other comments or questions on this? 8 I think you're just looking for approval to take 9 Commissioner Shoup, Commissioner Brock, 9 this to the board, correct? 10 are you okay moving this to the board for approval 10 CEO: Yes. This is just a short approval. 11 11 -- review and approval? 12 We're just letting you know that it's something 12 COMMISSIONER BROCK: Yes. 13 that every housing authority has to have --13 COMMISSIONER SHOUP: Yes. a fair housing assessment. 14 CHAIRMAN WALKER: That will be so moved. 14 15 We went out and procured Mosaic, who does --15 If you can, add that to the agenda for our next I hope I didn't butcher that name. 16 16 board meeting. 17 Did I say it right, Todd? I got less than a week notice on that. 16 16 17 I read it in the packet. 17 Just some of those things --CHAIRMAN WALKER: I didn't see it in the CHAIRMAN WALKER: That's a great point, 18 18 19 packet. If I missed it, my apologies. 19 Commissioner Shoup, and I think we're sort of finally in our jive here. 20 COMMISSIONER SHOUP: It had the logo in the 20 report. That's the reason I remember it. Why don't we go ahead and let's just do a 21 21 CHAIRMAN WALKER: I don't see it in my recurring invite? 22 22 And I do apologize. We have a plan in place to Like the Asset Management Committee can meet the address it. That will be at the next board, 3 3 third Tuesday of every month. It was just 9 Because here's what happens. We want to make 9 sure -- in spirit, we want to do many things. 10 an agreement where they provided us 84 units, 10 and we provide a subsidy on their units. Yes. 11 I am glad you called this Acquisition Committee 11 Meeting and didn't call it before, because, 12 CHAIRMAN WALKER: So it's even worse in my 12 opinion then. I was just circling back with this. 13 going through these closings and going through 13 this Development Agreement has been a long process 14 If possible, I think I'd like somebody from --14 we should extend the invitation to the 15 for some of us. 15 City of Jacksonville to have somebody from 16 Because it takes a lot of work trying to 16 Code Compliance come once a quarter and advise navigate through coordinating these first deals 17 17 18 us on properties where they have residential 18 especially. You can select 21 And we have all these people reaching out to 21 your own criteria -- but more than ten outstanding us for these deals, and I try to make it 22 22 23 on an individual property. 23 specifically clear. We have to close these two Because, in my experience dealing with 24 deals out so that we can get to a point where we 24 25 clients, Code Compliance is so backed up, 25 can sit down and look at these new deals and make Page 58 those sit out there forever, and they don't get sure we're making the right decision on them. 1 addressed. And they never get around to doing And we want to make sure they go through the 2 2 anything about it. 3 process, the Rubric Score Card. 3 4 Being the vanguards that we are, 4 They did the RFQ. They did the Rubric Score Card. Then we look at it in-house and have the 5 if we're aware of it, we can ask questions. 5 We can subpoen ainformation, and I'm going to find financial advisor look at it. If that is not 6 6 one -- the eminent domain -- before I roll off happening, then we're not doing the process. 7 7 8 this board just to see if it works. We want to make sure we follow that path 8 That's fine, Commissioner Shoup. It takes a 9 9 prior to getting to the Acquisition Committee, 10 two-thirds voice to the legislative body to remove and we do have some deals coming -- or at least 10 me. But, no. In all seriousness, I think that people constantly coming at us with those deals. 11 11 that is something that we want to track. 12 CHAIRMAN WALKER: Okay. That's great. 12 And then I'd ask if you could put together Any other comments, Commissioners? 13 13 whoever you want to -- this seems like a coup --(no response) 14 14 15 this seems like a coup type thing that we may want CHAIRMAN WALKER: Mr. Alexander? 15 to just put together some procedures around.
