(People laughed.) 15 15 That was one of the reasons why we decided CHAIRWOMAN HOROVITZ: You were talking about to do it, because we saw how well it was doing 16 16 the ability to draw down. 17 17 from an admin standpoint. Does everyone understand what that was and The bigger area of concern, which has been 18 18 is? 19 19 brought up by Ms. Phillips to me -- probably seven Do you have questions around our ability 20 times so far today -- is the shortfall which 20 to access that funding, that subsidy? 21 I think everybody is aware of. 21 (no response) 22 We know that we're trying to address that and 22 CHAIRWOMAN HOROVITZ: No questions. 23 get that situated. That is just for this fiscal 23 Thank you. 24 year. So through ten months we're about 24 MR. PALMER: The expenses, again --25 \$4,000,000 short. 25 my issue is with the actual versus the target, Page 22 Page 24 1 I believe last year there is still about as far as percentage. I feel like as well of a 1 2 300,000 that we're still looking to collect from 2 job that we've done in getting invoices in the 3 system to be paid to keep our vendors current, 3 even last year. So, overall, it's about 4 4.2- 4.3 million dollars in money that we've 4 based on that number, it leads me to believe that 5 there still may be some more catching up that 5 spent, that we've spent through the HAP contract 6 needs to be done. 6 that we haven't been reimbursed for. Especially since we just drew \$3,000,000 7 CHAIRWOMAN HOROVITZ: If I may --7 8 in August, I would assume that there are still 8 MR. PALMER: Yes. 9 some expenditures out there that aren't in the 9 CHAIRWOMAN HOROVITZ: -- is everyone familiar 10 system yet. 10 with the HAP shortfall? So I expect that number to go up, as well. COMMISSIONER REYES: Can we do a --11 11 12 We just have to see -- I'm going to do some other 12 COMMISSIONER ROGERS: Yes. 13 research just to see if we're missing something 13 CHAIRWOMAN HOROVITZ: -- yes. I'll give a 14 else somewhere else, but those two percentages 14 little bit of color to that, and, if anyone else 15 made me go, "Like what is this?" 15 in the room wants to add, that would be fantastic. 16 And I just haven't really had the time to 16 So, under the HAP contract, JHA pays a 17 delve into what are some of those other possible 17 portion of our residents' rent, and so there is a 18 reasons for the expenses being low in public 18 shortfall when the rents are rising faster than 19 housing. 19 that subsidy. Housing Choice Voucher -- so, again, 20 20 And so, because it's based on history, 21 remember there are essentially two buckets of 21 as we continued to basically lease-up units, 22 money in the Housing Choice Voucher Program. 22 we got into a situation -- this is happening 23 There is the HAP money, Housing Assistance 23 across public housing authorities -- that you're 24 Payments, and then there is the admin money. 24 renting more than you have the dollars to 25 Right? 25 support.

Page 27 Page 25 1 But we have seen it a little bit better, 1 And so that's where you have a shortfall. 2 I know that our team is working with 2 as far as the amount of money that we are getting 3 on a monthly basis, but it just seems like what HUD's Shortfall Team to solve this. 3 4 we're spending just still continues to be more The most effective way to solve it is to stop 4 5 5 than even what they're now giving us now. leasing, because you don't the funds to support 6 6 the additional units. MIXON-PHILLIPS: And so, at the end of 23 amount that they have already said is what they're 24 the day, we ought to even out, but the onus is on 24 going to give us for this year. 25 us to make sure that we are providing them the 25 And so, because we are spending more, Page 26 Page 28 1 as every housing authority is because the 1 documentation and the information. 2 cost of housing has increased significantly, 2 They have what they call, "the two-year 3 tool," where you go in and do your projections and 3 then we have to go back, and say that, you know, 4 "We're spending more," even though we're reporting 4 all of that to show what the shortfalls are going 5 5 to be. But you have to request that money from it on a monthly basis and request that they fund 6 us at the level of that over expenditure, 6 them in order to get it, basically. 7 MR. PALMER: This is an area that kind of 7 if you will, on what has been allocated. 8 COMMISSIONER REYES: Got it. Okay. 8 peeves me a little bit, because, not only is there 9 a two-year tool, there is a monthly submission 9 MS. Page 31 Page 29 1 We're spending a lot of time this week with 1 MR. PALMER: So this property is currently 2 Mr. Palmer. I also have a meeting scheduled with 2 showing that they are losing money. However, 3 the field office representatives. And so, yes, 3 this property is tied into our ability to draw 4 subsidy. It's a pass-through. 4 this is a Number One Priority. 5 5 COMMISSIONER SHIRLEY: Thank you. So, while this is not our AMP, they still rely on the money that we get from this AMP. 6 CHAIRWOMAN HOROVITZ: Thank you. 6 7 Commissioner Reyes. 7 So we get the money from HUD and then do a 8 COMMISSIONER REYES: So sorry. I'm curious 8 pass-through to this property. 9 to know, through the Chair, Ms. Phillips and 9 And, as you can see, the operating funds are, 10 Mr. Palmer, how are the other housing agencies 10 you know, year to date \$221,000 less than what we 11 dealing with this? 11 had budgeted. COMMISSIONER REYES: You have on the last 6 -- Gregory West is pretty much on target from an 6 7 income standpoint. The expenses are quite low 7 page for that planned expenses at over half a million --8 there, as well. Gregory West is actually managed 8 9 by a third party. So we get reports from them. 9 MR. We have a request in for a few items to 12 MR. PALMER: Keep going. 	I highlighted.  (Mr. Perez complied.)	24 25	one item that stuck out to me was just unit turnaround, and that could be a number of

Page 47 Page 45 1 things or just a high unit turnover. 1 "Hey, we did make our first interest payment." 2 But I also believe that, when we purchased 2 It was on time, with that included, this property, we also had to do some things to 3 but backing out our closing costs -- that one-time 3 some of the units just to get them to be 4 closing cost fee -- our operating revenue was now 4 5 down to \$226,000 for the year. 5 livable, you know, at the standard that we're 6 required to. 6 So it went from 970- or 950-, and now it's 7 down to 226- -- okay -- which isn't bad when you 7 So the hope is that, over the next few months 8 8 consider that we just put out a million dollars in and the next few years, there won't be as big of 9 9 a need there to put that dollar amount of an expense. 10 Right? 10 improvements into these units. Because, hopefully, they're where they need to be. 11 11 So, if you do the math, if it was \$9,000,000 12 12 and we paid 1,000,000, then you should have and we can keep them there. 13 The main thing that I wanted to point out in 13 \$100,000, but we have 226-.
